Education

Vidyavardhini's College of Engineering and Technology Vasai, India
Bachelor of Engineering in Computer Science & Engineering (Data Science) *July 2023 – May 2027*
- Expected Graduation: May 2027 — Current Year: 3rd Year

Technical Skills

Programming Languages: C, Java, JavaScript, Python
Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML, CSS
Cloud & DevOps: Cloud Architecture, DevOps Practices, Deployment Strategies
Core Concepts: Data Structures & Algorithms, OOP, Computer Networks, Operating Systems
Tools & Technologies: Git, Linux, Database Management

Experience

Cloud Architect October 2025 – Present
Google Developers Group onCampus - VCET *Vasai, India*
- Leading cloud architecture initiatives and promoting cloud computing best practices within the campus developer community
- Organizing technical workshops and knowledge-sharing sessions on cloud technologies, DevOps, and deployment strategies
- Collaborating with fellow developers to build and deploy scalable cloud-native applications

Projects

MediBot: Disease Prediction Using Symptoms
AI/ML
- Built an ML web app that predicts diseases based on symptoms using Random Forest, Naive Bayes, and Logistic Regression
- Trained models on a large Kaggle dataset and stored them using Pickle/Joblib for real-time inference
- Developed REST APIs with Flask and integrated them with a chatbot-style frontend using JavaScript
- Implemented fuzzy matching and accuracy comparison of all models to present top-k predictions with confidence scores.

E-commerce Platform with AI Integration Ongoing
MERN Stack
- Built a full-stack MERN e-commerce platform featuring user authentication, product browsing, cart management, order placement, and admin controls
- Integrated AI-powered recommendation system to personalize product suggestions based on user behavior and purchase history
- Implemented secure APIs using Node.js + Express, handled database operations with MongoDB, and built responsive UI components with React
- Added payment workflow, product filters, and real-time updates using context/state management and optimized backend routing

Achievements

Wheel of Fortune Syntech-X (2023-24 Winner)
Selected as Cloud Architect at GDG onCampus VCET for 2025–26 academic year
Completed multiple programming certifications across C, C++, JavaScript, and AI tools

Certifications

C (GeeksForGeeks) **AI Tools** (GeeksForGeeks) **JAVA** (Infosys Springboard)
Python (Codedex) **C** (SoloLearn) **C** (Great Learning)
